eventuosity
plan anything. plan for everything.

The Cloud-Based Event Management Platform
Keeping You in Control
in Your Office, On the Road, and On-Site

Product Features

CREATE
Start a project from scratch, use built-in templates, or recall prior events to create event plans that take you from your first planning meeting to your final report.

COLLABORATE
Grant permission-based access to staff, suppliers, and other team members. Delegate work and communicate in real-time.

MANAGE
Assign, track, and update every activity in your event's workflow while maintaining visibility and control of your team's progress from any location or device.

INTEGRATE
Add event management capability to your existing IT stack. Off-the-shelf and custom connections to CRM, Marketing Automation, email, travel, and expense tools are available.

ACCESS
Events don't happen in an office. Everyone on your team has the ability to stay connected and work collaboratively from the office, the road, or your event venue.

ANALYZE
With all of your event data in one place you will gain unprecedented insight to improve decision-making, monitor budget performance, optimize resources, and more.

eventuosity®
plan anything. plan for everything.

eventuosity is the first cloud-based event management application to integrate project tracking, business intelligence, and collaboration tools into a single platform. Whether you manage events in support of corporate marketing initiatives, for an association and its membership, or for a diverse client base as an agency or independent planner, *eventuosity* gives you unprecedented insight and control of everything that impacts their success. Use *eventuosity* for:

- Trade Shows & Exhibitions
- Tours & Brand Activations
- Training Programs
- User Groups

- Single or Recurring Meetings
- Conferences
- Social and Non-Profit Events
- Custom Event Types

Benefits

Work Strategically
Automate low-value work and standardize your event management processes. Reduce the amount of time you spend on routine logistics and task tracking. Focus more on the strategic, ROI-generating aspects of your events.

Reduce Costs
eventuosity pays for itself quickly by helping you to eliminate last-minute spending, reduce on-site staff, allocate resources more efficiently, and ensure deadlines are consistently met.

Stay Organized
Reduce the number of applications and offline tools you're using to run and report on your projects while keeping all of your event data with you no matter where you are. See everything that is happening before, during, and after your event to avoid potential resource gaps or cost over-runs.
